Join us in tackling real-world challenges in Waste Management!

About Living Lab

IIT Bombay's Living Lab Alleppey is a dynamic, real-world innovation hub where researchers, communities, professionals, and stakeholders collaborate to co-create and implement solutions for urgent social, environmental, and urban challenges. By integrating research, technology, and local participation, it transforms ideas into action and bridges the gap between theory and practice.

About the Organisation

TAGS Forum is a dynamic platform fostering sustainability, research, and community-driven innovation. By bridging expertise with grassroots action, TAGS empowers transformative solutions for environmental and social challenges.

Hosted by IIT B Living Lab Alleppey & TAGS Forum focuses on sustainability, climate change action, and community-driven initiatives, making it a catalyst for impactful research and lasting change.
